## ANTI SPLASH SCREEN

### DESCRIPTION

The Cleervue Anti Splash Screen is a free-standing guard mounted on 50mm swivel and brake castors.

It has a Steel Frame and a 5mm Polycarbonate screen with returns to deflect any debris.

The screen can be adjusted up and down by loosening the two knobs on the back of the guard.

This guard is a great extra on messy jobs where containing coolant and swarf can be a problem.

### UNPACKING

Check for shipping damage. If damage has occurred, a claim must be filled with carrier. Check for completeness. Immediately report missing parts to supplier.

### SAFETY RULES

**Warning:** for your own safety, read all of the instructions and precautions before operating tool.

**Caution:** always follow proper operating procedures as defined in this manual - even if you are familiar with use of this or similar tools.

Remember that being careless for even a fraction of a second can result in severe personal injury.

### ASSEMBLY

The Anti Splash Screen come part assembled due to the size of the guard.

The legs of the guard need sliding into the tubes on either side of the mounting bracket attached to the screen.

Then the bottom support bar needs fitting into place with the two M8 bolts supplied.

### INSTALLATION

This guard can be used on any machine where there is risk of flying debris swarf or coolant. Just simply roll it into place and apply the brakes.

**Important:** Make sure all bolts are nice and tight.

The visors should be replaced every 3 years and should be checked every day before use for signs of cracking or weakening.

Some coolants and cleaners are known to weaken polycarbonate so please check with your supplier before use.

### OPERATION

The Anti Splash Screen is easily moved around with it been mounted on 50mm swivel castors. The screen can be adjusted up and down using the two knobs.
